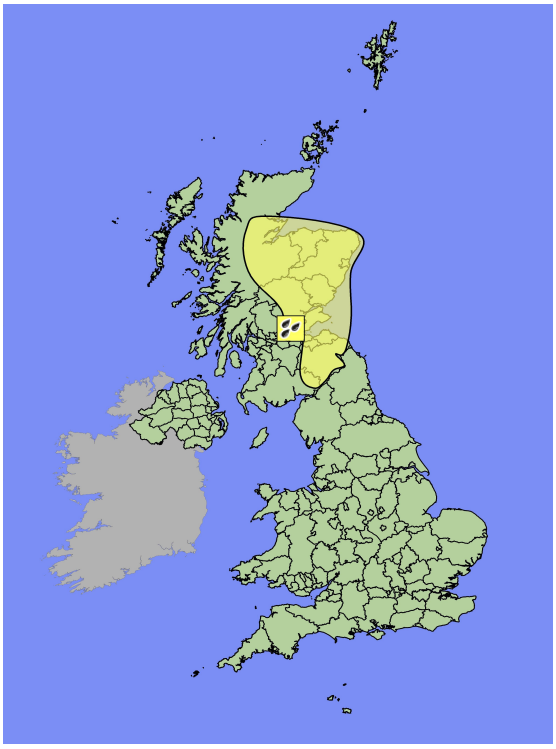
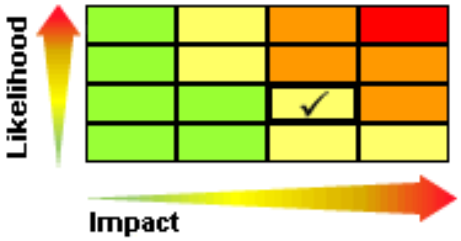
National Severe Weather Warning Service





Chief Forecasters Assessment
An area of low pressure will become centred to the east of Scotland by Saturday morning. Bands of heavy showers within the circulation of the low are likely to affect some eastern parts of Scotland overnight, whilst heavy, thundery showers are expected to develop during Saturday with some slow moving downpours possible, particularly in a line from the eastern Highlands to Fife and Angus.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **00:00 on Sat, 09th Jul 2011** until **21:00 on Sat, 09th Jul 2011**

Heavy showers, some prolonged and thundery, will affect Eastern Scotland overnight and through Saturday, and then also develop across parts of the Highlands during daytime Saturday. Localised rainfall totals of 20 mm in less than 2 hours may occur.
